1. Your invitation for representatives of this Agency to participate in the exploitation phase of Project (C) [REDACTED] noted in the above referenced memorandum is accepted.

2. This Agency has maintained close contact with the progress of the subject project and is keenly interested in its results. In response to your present planning for exploitation by three geographic regions, we are recommending that two teams of CIA photo interpreters of two (2) men each be assigned on a rotating basis with one (1) additional man serving full-time with continuing assignment to one of the three regions as well as liaison between this Agency and the [REDACTED] Project. This plan of continuous assignment for one and rotational assignment for four (4) of our photo interpreters in the exploitation phase of the project would develop useful experience for more of our personnel for later work in utilizing the results of Project [REDACTED]

3. We shall be ready to name our representatives to Colonel George W. Gregg, of the Directorate of Intelligence, at any appropriate time prior to 1 October 1955, in order that all necessary arrangements and clearances may be satisfactorily handled before the project gets under way. We are quite anxious to contribute to the limit of our resources in the full exploitation of [REDACTED] production, not only for our own area of intelligence interest but for the community as a whole.
